

Quality & Environmental Policy

Quality Policy:

BGM considers success to be the result of our commitment to:

- QMS compliance obligations
- Customer requirements
- Continuous improvement
- Customer service
- Teamwork
- Quality workmanship
- On time delivery
- Enhancing quality performance

Environmental, Health & Safety Policy:

Environmental protection and occupational health and safety are among our top priorities. Therefore, we address environmental, health and safety issues at BGM as follows:

Our present and future operations and processes will comply with relevant statutory, regulatory and other requirements including policies of BGM.

We will strive to develop and provide production processes, products and services with reduced harmful environmental impacts that are safe to use and can be recycled or disposed of in an environmentally safe manner.

We will strive to promote a safe and healthy atmosphere by proactively identifying and managing health and safety risks.

We will educate, training and encourage our employees and contractors to carry out their environmental and occupational tasks responsibly and safely.

We will emphasize pollution reduction via continuing efforts to design and implement pollution prevention strategies.
